Summary

Detail-oriented computer science student studying cybersecurity and digital forensics. Experienced in analyzing system artifacts, investigating network and memory activity, and communicating technical findings. Strong analytical thinker with collaborative project experience.

Skills

Programming: Python, C, C++

Security & Analysis: Data analysis, log analysis, investigative problem solving, system behavior analysis

Tools: Git, Docker, Wireshark, Volatility, FTK

Concepts: Computer security fundamentals, networking basics, operating systems

Education

Washington State University — Pullman, WA

December 2026

Bachelor of Science in Computer Science

Relevant Coursework: Cyber Forensics, Cybersecurity of Wireless Systems, Algorithm Design

Olympic College — Bremerton, WA

June 2023

Associate of Arts

Projects

Windows Memory Forensics Investigation — Volatility, Docker

- Investigated a Windows 7 memory dump to recover user activity, command history, and registry artifacts.
- Extracted system metadata to reconstruct system usage and detect file-copy operations.

Network Forensics Investigation — Python, Wireshark, Packet Analysis, TCP/IP

- Captured and analyzed network traffic to investigate suspicious activity within a simulated environment.
- Reconstructed timelines and correlated packet data with network events to trace activity to specific devices.

Certifications

AWS Certified Cloud Practitioner

Amazon Web Services, 2025

Employment History

Washington State University — Pullman, WA

Aug 2025 - Dec 2025

Undergraduate EECS Teaching Assistant

- Assisted students in understanding course material and reinforced analytical problem-solving techniques.
- Proctored exams and evaluated assignments, ensuring fairness and accuracy.
- Collaborated with other TAs to maintain consistent grading and efficient course administration.

Boys and Girls Club of North Kitsap — Kingston, WA

May 2024 - Aug 2025

Youth Development Professional

- Supervised school-age youth and maintained safety for all participants.
- Led educational games and activities to promote teamwork and social skills.
- Provided mentorship to build confidence and resilience.

Phi Theta Kappa Honor Society, Olympic College — Bremerton, WA

Sep 2022 - Jun 2023

Treasurer

- Managed chapter projects with an eight-member officer team to improve campus and community initiatives.
- Attended weekly leadership meetings to coordinate and track project progress.
